“We chose Nolan's Roofing after doing a lot of talking and reading of reviews. We are absolutely thrilled with the work, quality of materials, the very hard-working crew and their attention to details... They were very friendly and helpful, and had an excellent work ethic. They seemed proud of their company and the finished work. They roofed the house, garage and gazebo. The house was an unenviable job because of the pitch of the roof and number of gables, but the crew eagerly met the challenge! Overall, it was an amazing experience and we love the result. I can't recommend this company enough!!” — Pat L.
